

## RULE 203.2

### Eligibility of Compensatory Emission Reductions

In evaluating applications under Rules 203.1 and 213, the Air Pollution Control Officer shall:

- (a) Consider compensatory emission reductions only after applications have been submitted in accordance with Rule 203.1 and such applications are substantially complete in accordance with Rule 210.
- (b) Not consider compensatory emission reductions if before the applications are substantially complete, a public hearing is set to consider adopting rules which would require the same emission reductions from the same equipment type as those proposed by the applicant. In the event that such rules are not adopted or are adopted only in part, the control technology not adopted will no longer be ineligible for compensatory emission reductions.
- (c) Notify the applicant in writing when applications reviewed under Rule 203.1 and 213 are considered substantially complete.

The provisions of this rule shall apply to applications received on or after date this rule is adopted.

[SIP: Not SIP; Superseded by approval of Reg. XIII as adopted 7/21/80, 6/9/82, 47 FR 25013, 40 CFR 52.220(c)(87)(iv)]

(Adopted: 01/09/76; CARB Ex. Ord. G-73: 02/01/77;  
Readopted: 07/25/77)

## RULE 204

### Permit Conditions

To assure compliance with all applicable regulations, the Air Pollution Control Officer may impose written conditions on any permit. Commencing work or operation under such a permit shall be deemed acceptance of all the conditions so specified.

[SIP: Approved 11/9/78, 43 FR 52237, 40 CFR 52.220(c)(39)(ii)(B) and 40 CFR 52.220(c)(31)(vi)(C)]
